SGPA: 6.73

B.Tech in Information Technology

University: Parul University, Vadodara, Gujarat, India

3rd Semester

CGPA: 7.95

SGPA: 7.95

EXPERIENCE

Company: Gujarat Alkalies and Chemicals Limited (GACL), Vadodara – Vadodara, India

Duration:9th July 2024 to 5th August 2024

Department:Management Services

During my internship at GACL, I learned how IT systems work in a company and observed daily IT operations. I also learned to write and execute SQL queries to manage and get data from the database. Along with this, I worked on a simple Java program to send automated emails.

ACHIEVEMENTS

Republic Day Flag Hoisting (2026)

Honored to perform flag hoisting as Chief Guest at Raipura Primary School, reflecting leadership responsibility, and community recognition.

Top 3 Rank in 10th Standard

Achieved a Top 3 position in the village during 10th standard and received formal recognition from Raipura Shreshth School (PM SHRI), Gujarat.

Alumni Recognition by Raipura Shreshth School (PM SHRI)

Invited & recognized as a former student, acknowledging academic performance & continued engagement with the institution.

CANVA DESIGN

PROJECT

E-Book Web ApplicationBook App (Final Year Project)

The application allows users to sign up, log in, upload books, and read books online. Users can explore categories like fiction, horror, and children's books. The app has a user-friendly interface and secure login system. Readers can view details and read books directly.

Technologies Used:

- Frontend: HTML, CSS, JavaScript, React.js
- Backend: Node.js, Express.js

Database: MongoDB

Tools:

- VS Code, Postman, XAMPP

Features:

- User Signup
- User Login
- Upload Books
- Read Books
- Explore Categories (Fiction, Horror, Children)

Harshidhi Water Supply(Water Delivery Management Website)

Developed a responsive web application for water booking and customer service management, enabling efficient handling of orders and improving overall operational workflow. Implemented CRUD operations.

Technologies Used:

- Python Django, HTML, CSS

Database: SQLITE

Tools:

- VS Code, GITHUB

Features:

- Online Order Booking, Service Management, Pricing Plans, Contact Form, Location Map Integration, Responsive Design

Restaurant Website (Bibzy Eats)

Designed a visually engaging multi-page restaurant website focused on intuitive user experience, smooth navigation, and effective presentation of menu, brand, and customer interactions.

Technologies Used:

- HTML, CSS

Tools:

- VS Code, Github

Features:

- Multi-page layout: Home, About, Menu, Gallery, Reviews, Order
- Interactive menu browsing and dish exploration
- Customer reviews and team introduction sections
- Order interface for user interaction
- Smooth animations and visual transitions

College Event Management Website

Developed a web-based platform to manage university events and student registrations, streamlining event organization and participant data handling through an integrated system.

Technologies Used:

- Python Django, HTML, CSS

Features:

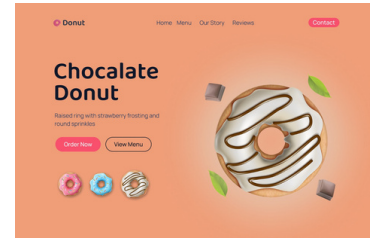

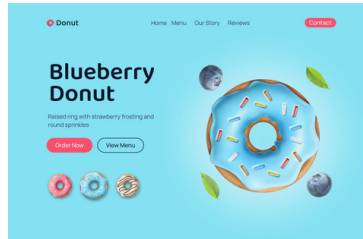

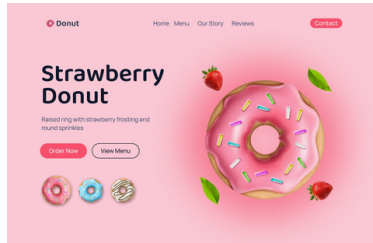

- Home, Events and Registration pages

UI/UX DESIGN

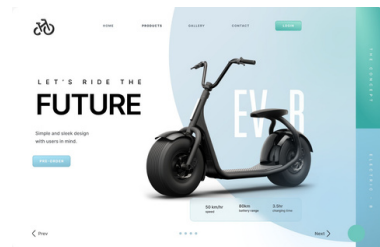

Donut Web App Design

Designed a modern and attractive food landing page with three unique design variations (Strawberry, Blueberry, Chocolate). Focused on product highlighting, vibrant color themes, and clean user interface.

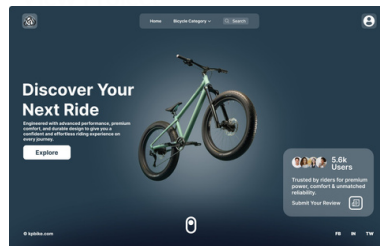

EV Scooter Design

Created a futuristic landing page for an electric scooter brand with sleek visuals, minimal layout, and effective product presentation for a modern user experience.

Bicycle Design

Designed a stylish promotional homepage for a bicycle brand featuring dynamic visuals, balanced layout, and engaging call-to-action sections.
